

## "A Chain is no Stronger Than its Weakest Link"

and a coat, vest or pair of trousers is not stronger than its weakest seam. There is no such thing as a weak seam in STEIN-BLOCH clothes which bear this label, because they are made in carefully supervised tailor shops by skilled journeymen tailors. The seams and workmanship of every garment are thoroughly inspected before it is permitted to leave the shop.

If you would only take a little time to investigate the merits of these clothes as compared with the highest grade of made-to-measure garments you will realize what a lot of money you can save every year on your clothes by dropping your tailor and wearing this "made-to-fit" apparel.

We sell Stein-Bloch Suits from \$10 to \$25 and give you your money back if you want it.

## BOTH TO LEAVE

Two Seattle Steamers Are Sailing Today.

Long Stay Here of the Columbia. Passengers for Sound-Centennial via Hilo.

Three long toots from the City of Columbia's whistle shortly after 6 o'clock last evening was the cause of a good many inquiries through the telephone to central. But the City of Columbia did not sail at that hour although she was duly advertised and evidently intended to do so. There was something the matter—just what no one seemed to know. She will sail for Seattle direct at 10 o'clock this morning. Fourteen passengers have been booked and there are but 400 bunches of bananas for freight which compels her to take some ballast.

One of the passengers on board is Capt. Barnesson, formerly of the troopship Arizona, who goes to Seattle to attend to the business in which he is interested, the shipping firm of Barnesson & Chilcott, of which he is the senior member. Captain Barnesson succeeded on the Arizona by Chief Officer Ames, while promotions follow along the line of the other deck officers. Capt. Barnesson desired to resign in Manila but his services were in such demand he could not be spared. A report on board the Seattle steamer was to the effect that Capt. Barnesson may take command of the City of Columbia in place of Captain Milnor.

Attorney Cayless and Mr. Burling, who represented the interests of the City of Columbia in the courts here, will also be passengers on that steamer today. There are a few of the mechanics who came from the Coast recently returning to the Sound.

It is expected that the City of Columbia will reach Seattle in about eight days. She will be a sort of returned prodigal there for she has been gone from Seattle close to two and a half months, having spent since September 10th, accumulating barnacles in this harbor and judgments in the local courts.

The Centennial which sails today for the Sound by way of Hilo will reach Seattle about a week after the City of Columbia.

The City of Columbia returns to Honolulu from Seattle about the middle of next month with the Minnesota excursionists who come to visit these islands. There are about 100 already booked according to the report of the agent of the Great Northern Railroad in Seattle and it promises to be the biggest thing in the excursion line that has ever arrived here not only in point of numbers but in the financial and social standing of the people from St. Paul and Minneapolis who have taken tickets.

### MISSION CHILDREN.

An Interesting Meeting at the Atherton Home.

There was a well attended meeting last evening of the Mission Children's Society at the home of Mr. Jos. B. and Mrs. Atherton, on King street. This residence is a favorite gathering place for the members of the society. The principal paper of the evening was by Mr. de la Porte and was a most interesting account of work for Christianity amongst the natives of the Gilbert Islands. Mr. de la Porte is soon to return to that region and is of the belief that affairs there generally now will be more favorable to missionary work.

A full resume of the status of work for Hawaiian girls was given in letters from the principals of the Kohala and Hilo schools. These letters were read by Mrs. Theo. Richards.

Mrs. Gulick read letters from Thos. Gulick, brother of Rev. Armour Gulick. Thos. Gulick has been traveling in the "Land of the Midnight Sun" and sends excellent descriptions of the rare beauties of that section of the world.

This was the musical program of the evening.

Quartette—Hawaiian Boys.

Piano Duet—Mrs. Richards and Miss Hyde.

Chorus—Ten Chinese Girls from Mr. Damon's school.

Piano Solo—Mrs. Clarence Cooke. All of these numbers were well liked, but the singing of the Chinese maidens was of course the feature of the evening.

### LUNA KILLED.

Murder By Chinese Reported From Hawaii.

The news of a murder on the Wai-akea plantation was brought from Hawaii by the Mauna Loa yesterday afternoon. The murdered man, Wm. Buguit by name, was a luna over a lot of Chinamen, one of whom is suspected by the police as the murderer. Buguit's body was found in the fields late at night, badly cut about the face and body. The nature of the wounds shows that a large cane hoe must have been the weapon used by the murderer. Twenty-five Chinamen were arrested, each one-blaming one of their number who had run away shortly after the murdered man was found.

The police had not found the missing man up to the time of the sailing of the Mauna Loa.

An important branch of this great business is the Mail Order Service—managed by an expert, assisted by a large corps of competent mail order people. The same low prices that visitors to the store enjoy, are charged to customers at a distance. Goods are shipped the day order is received or on first out-going steamer thereafter. The Emporium Economist, a 130 page book in beautiful 7 color cover, contains 1500 illustrations. It gives the lowest price for everything to wear, eat, drink or use in your home and tells how to shop satisfactorily by mail. Mailed free to any address on application to the

## A Naval Hero's Story.

From the Times-Herald, Chicago, Ill.

Late in 1861, when President Lincoln issued a call for volunteers, L. J. Clark, of Warren, Trumbull Co., Ohio, was among the first to respond. He joined the mortar fleet of Admiral Porter just before the memorable operations on the Mississippi River began. It was at the terrific bombardment of the Vicksburg forts, that the hero of this story fell with a shattered arm from a charge of schrapnel.

After painful months in the hospital, he recovered sufficiently to be sent to his home at Warren, Ohio. Another call for troops fired his patriotic zeal and Clark soon enlisted in Company H, of the 7th Ohio Volunteers. In the army of the Potomac he was in many engagements. Being wounded in a skirmish near Richmond, he was sent to the hospital and thence home.

Soon afterward he began the study and then the practice of veterinary surgery. Seeking a wider field than the Ohio village afforded, he went to Chicago where he now has a wide practice, is a member of Hatch Post, G. A. R., and lives at 4955 Ashland Ave.

Several years ago Dr. Clark's old wounds began to trouble him. He grew weak and emaciated, and his friends despaired of his life. He finally recovered sufficiently to be out but was a mere shadow, weighing only 90 pounds. The best medical attendance failed to restore his lost strength and vigor.

"A friend gave me a box of Dr. Williams' Pink Pills for Pale People," said Dr. Clark, "and they helped me so much that I bought a half dozen boxes and took them. I soon regained my strength, now weigh 190 pounds, and, except for injuries that can never be remedied, am as well as ever."

"I consider Dr. Williams' Pink Pills for Pale People the best remedy to build up a run-down system, and heartily recommend them to everyone in need of such aid."

### MERIT VS. TALK.

It is all right to claim this wheel or that wheel as the "only best" but the only practical and sure test is merit. Merit wears indefinitely while talk wears itself out. The STERLING BICYCLE shows its merits daily by the way it stands up under hard usage. Pacific Cycle & Mfg. Co., agents.

### IS PERFECT.

People recently from the Coast pronounce the Enterprise Beer, as served at the Merchants' Exchange, as the best in the city.

## A Hint to Epicurians.

THE BEST RECOMMENDATION goods can receive is the increased demand for them. The new and extensive plant of the STANDARD BISCUIT COMPANY is evidence of the increased demand for their goods. The use of only the purest and best materials and the skill of their bakers have made them leaders for all that is good in the way of crackers.

THIS FIRM will not be content with supplying the best in the cracker line, but will strive to be the advance agent of all up to date ideas and improved machinery. DAININESS, CLEANLINESS and HEALTHFULNESS will always distinguish "STANDARD" goods from all others in such degree that they will never fail to please those who want the best.

THE STANDARD BISCUIT COMPANY is setting the pace for dainty eatables, improvement and betterment is their one thought. You might get other goods just as cheap at "STANDARD" but you will never get the quality. All first class grocers sell them.
